

## How To Play Indigo

1. Click "Load" to load a previously saved game  
Or Click "New Game" to start a new game
2. If you're starting a new Game choose your Game Model, then click "Start".

### a) Local Game

Click "Plus" to add a Player to the Game and click "Minus" to remove them.

For each Player, enter their name in the textbox and click on the color you'd like them to play as.

Then choose whether they're being played by

- a human (Person Icon),
- a random AI (Question Mark Icon) or a
- smart AI (Exclamation Mark Icon)

by clicking on the Icons in the category "Type".

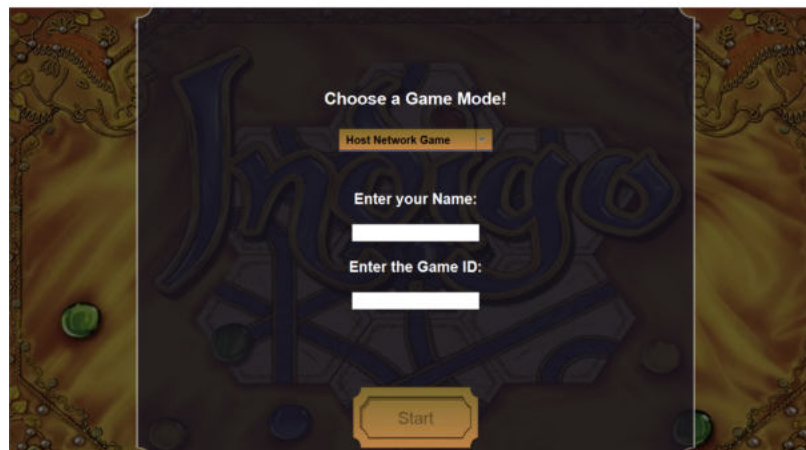

If you are playing with one of the AIs use the DropDown Menu on the right to choose their Speed.

If you are playing with three Players use the DropDown Menu on the left to choose if you want to play using Shared Gates or Solo Gates.

b) Host Network Game

Enter your Name in the Textbox then enter your Game ID in the Textbox below.

Then click “Start”.

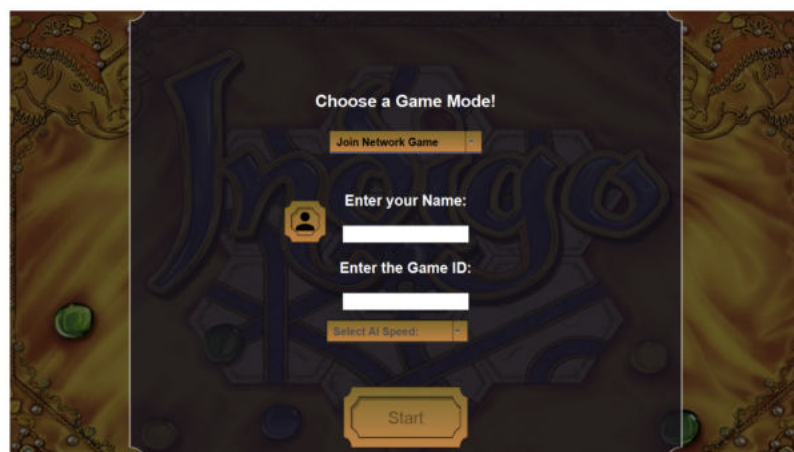

c) Join Network Game

Enter your Name in the Textbox and click the Icon on the left to pick whether you want to play as

- a human (Person Icon),
- a random AI (Question Mark Icon) or a
- smart AI (Exclamation Mark Icon)

Then enter the GameID in the TextBox below. If an AI is playing, use the DropDown Menu to select the AISpeed. Then click “Start”.

### 3. Playing the Game

Look at the Table in the upper left corner to check how many of each Gem each Player has.

Click on the Players Icons to see their Username. You can see their current held Tile to the right of their Gems.

The current Player is indicated by the green box surrounding it and the current Players held Tile is found in the bottom left.

Use the arrows to turn the tile and click where you would like to place it. All spaces on the board where the tile may not be placed are grayed out.

Use the Buttons on the right to Undo, Redo, Save, Quit or view the Rules.

4. If you have finished playing the Game click "Start New Game" to start a new Game or click "Quit" to close the Game.
